

calendar::weeklyCalendar
View::calculateCurrentWeek

calendar::weeklyCalendar
View::getEventsForDay

calendar::weeklyCalendar
View::displayReminderEvent

```
graph LR; A[calendar::weeklyCalendar View::calculateCurrentWeek] --> C[calendar::weeklyCalendar View::displayReminderEvent]; B[calendar::weeklyCalendar View::getEventsForDay] --> C;
```

The diagram illustrates a flow of control or data between three components. On the left, there are two white rectangular boxes. The top box contains the text 'calendar::weeklyCalendar View::calculateCurrentWeek'. The bottom box contains the text 'calendar::weeklyCalendar View::getEventsForDay'. On the right, there is a gray rectangular box containing the text 'calendar::weeklyCalendar View::displayReminderEvent'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'calculateCurrentWeek' and 'getEventsForDay' lead to 'displayReminderEvent'.
