

calendar::weeklyCalendar
View::calculateCurrentWeek

MainWindow::MainWindow

calendar::date::setWeekNum

```
graph LR; A["calendar::weeklyCalendar  
View::calculateCurrentWeek"] --> C["calendar::date::setWeekNum"]; B["MainWindow::MainWindow"] --> C;
```

The diagram illustrates two function calls to `calendar::date::setWeekNum`. On the left, two boxes represent the callers: `calendar::weeklyCalendar View::calculateCurrentWeek` (top) and `MainWindow::MainWindow` (bottom). Arrows from both boxes point to a single box on the right representing the callee, `calendar::date::setWeekNum`. The callee box is shaded gray, while the caller boxes are white with black borders.
